Dear Groveland,

Part of our City's Natural Charm is keeping each other safe and healthy. To assist with these efforts, I am urging all residents to remain vigilant and play your part in helping slow the spread of Covid-19 in our community.

In the recent days within our organization, there have been several City employees who have tested positive for Covid-19. While we have taken necessary precautions to keep our employee work environments safe through education and utilizing special sanitation services, there are still ways each of us can help protect our community.

It is imperative that we do not become complacent in the actions that can ultimately keep ourselves and our neighbors safe. I am asking every one of our citizens for the safety of our First Responders, residents and visitors, to wear your masks, continue social distancing, stay home if you're feeling ill and only travel when absolutely necessary. Be sure to continue adhering to all CDC guidelines, including but not limited to the frequent washing of your hands and wiping down frequently touched surfaces.

I know many of us may feel limited in what we are able to do. Be encouraged that if we continue to exercise these safety practices now, we can preserve the longevity of our community's health and wellness.

Remember, we are stronger together! Let's stand united in our role of protecting each other and our charming community.

Stay home, be safe and be well.

Sincerely,

Evelyn Wilson
